Summary observations

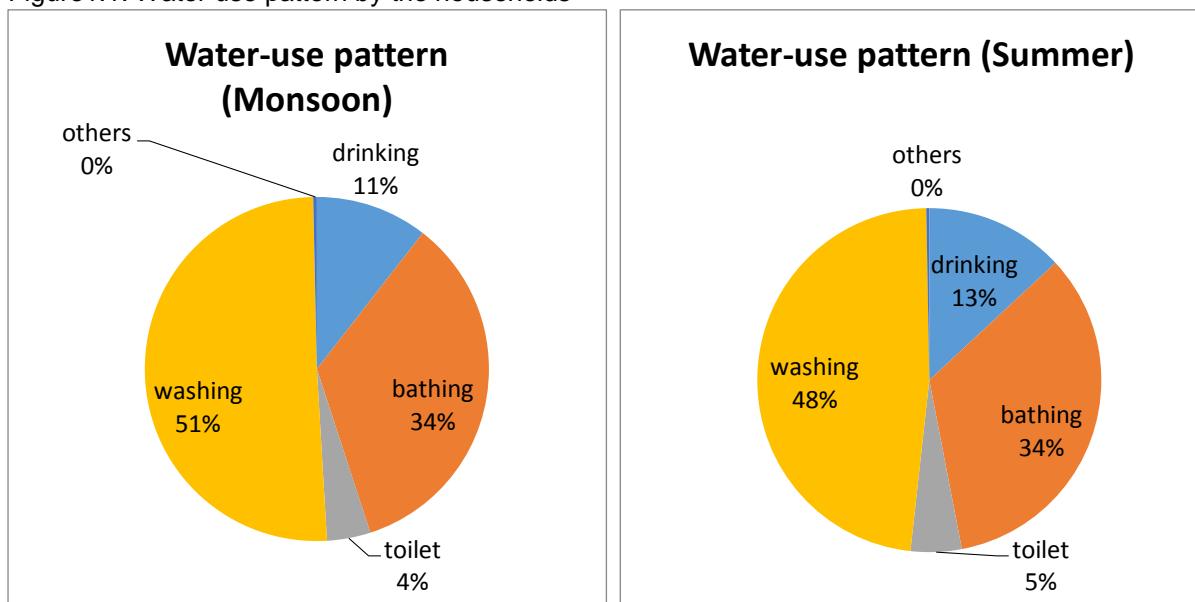

Table1.3: Summary observations

S No.	Item	Number
1	Total Number of tribal habitations in the region	29
2	No. of habitations surveyed	29
3	Total number of households	
4	Number of households surveyed % of households surveyed	323
5	Households harvesting rain water at home	0%
6	Average water storage capacity in a household (in liters)	392 liters
7	% of households with storage capacity of 1000 liters or less	84%
8	% of households with storage capacity of 500 liters or less	80%
9	% of households with storage capacity of 250 liters or less	78%
10	Average water consumption per family (liters per day) Maximum water consumption per family (liters per day)	286-378 LPD (across seasons) 1400-1850 LPD (across seasons)
11	Number of habitations with only spring water supply	11
12	Number of habitations with spring and open well water supply Number of habitations with spring and stream water supply	3
13	% of Households practicing Open Defecation	54%
14	Number of habitations reporting Open Defecation % of habitations reporting Open Defecation	26 87%
15	Number of habitations with Community Toilets	2
16	Number of habitations reporting usage of Community Toilets	2
17	Number of habitations reporting collection of waste at the doorstep	Nil
18	Number of habitations reporting waste bins being located	1 (doubtful)
19	% of households reporting purchase of water	Nil
20	% of households reporting water borne diseases	67%
